

BASIC SIGHT-SINGING AND EAR TRAINING FOR CHURCH SINGERS

RHYTHM EXERCISES 1.1

INSTRUCTIONS FOR RHYTHM PRACTICE

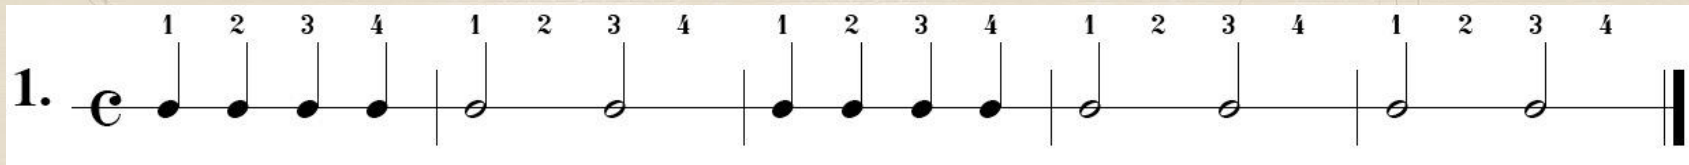

1. Listen for the pulse or establish a regular pulse (beat) yourself.
2. Keep the pulse going by tapping it (inaudibly) with your finger or a big toe inside your shoe.
3. Speak or sing each exercise on the following slides, using the appropriate Kodály rhythm syllables for the note values you see — “ta” for quarter notes, and “too-oo” for half notes.
4. Repeat each exercise until you are confident.
5. Record yourself using your smartphone and upload your recording to Google classroom (see Slide 7 below for instructions.)

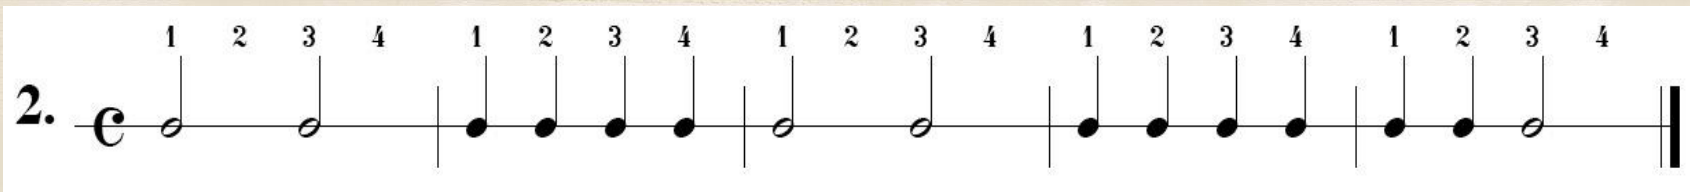

VARIATION: Count the beats out loud while clapping the rhythm: quarter note=clap, half note=clap-push.
